

ARCHAEOPRESS NOTES FOR CONTRIBUTORS TO MULTI-AUTHOR VOLUMES

The volume editors will define their preferences for referencing styles and other technical matters at the beginning of the publication process and will instruct the contributors accordingly. Various alternatives are set out below.

Completed contributions should be submitted to the volume editors and not to Archaeopress. The editors will give instructions on the methods of file submission to them.

The final formatting of books will usually be carried out by Archaeopress. Exceptionally it may be agreed that the volume editors will carry out this task.

Submissions should conform to the guidelines below and must be thoroughly spell-checked, copy-edited and proof-read. Submitted texts must be consistent in terms of capitalisation, spelling, punctuation, abbreviations, references, headings etc as detailed below.

Submissions should also include a list of 'key words', a summary of c. 100 words, and a brief biography of the author(s).

Text

Text files should be submitted in plain single-column, single-spaced format, A4, left aligned with generous margins. InDesign or MS Word are the preferred programs for the text. Texts which use particular fonts such as Ancient Greek or Cyrillic should additionally be submitted as .pdf files.

Fonts

Avoid long quotations in different alphabets and transliterate where possible.

Headings and sub-headings

Clearly distinguish different heading levels (eg., major heading and sub-heading). Avoid numbering.

Referencing

Footnotes and Harvard style referencing (see below) are both acceptable (for multi-author volumes, system will be defined by the volume editors). When writing in English and using footnotes, please note that footnote reference numbers should be placed after punctuation and not before (i.e., word.¹ and not word¹). Do not use end notes.

Figures, tables and captions

Standard publication size is just smaller than A4 – 205mm x 290mm. Prepare figures accordingly, and indicate intended size if not provided in the correct size (for example a large photograph). Figures, tables and photos may take up the full print area of 165mm x 245mm.

Number illustrations / figures / photos and refer to them all as Figures. Tables may have their own sequence. Capitalise and do not abbreviate 'Figure' or 'Table' in the text. Ensure that there is a numbered reference to each figure and table in the text. List all captions at the end of the text after the Bibliography, or in a separate file.

The captions should include any necessary copyright information. All images that do not belong to the author must have copyright cleared on them for both print and electronic publication and this is the responsibility of the individual authors

The publisher will decide, following discussion with volume editors, if images / figures are to be printed in black and white or colour. Subvention for colour printing may be required, but colour images should be submitted in colour and not changed to b/w.

The following file types are acceptable:

Excel or Word

Use for tables with sans-serif font (such as Arial), preferably in point size 9, and no less than 8.

Excel

Charts and graphs should be designed to appear in black and white. Use patterns and symbols to distinguish bars on graphs, etc. rather than colour or tone.

Adobe Illustrator

Convert to black and white; do not submit in colour. If using versions earlier than 9 make sure that all fonts are embedded or included on the disk, or save them as a .pdf file.

Adobe Photoshop

All formats are acceptable.

.pdf files

Use high resolution only. Embed all fonts and do not compress images when distilling.

TIFF, EPS

These are the preferred formats for scanned images.
Scan photographic prints at 600 dpi, slides at 1200 dpi.
Scan black and white line artwork at 600 dpi.
Scan mixed line and tone illustrations at 600 dpi.
(JPEGs are acceptable if saved to maximum quality.)
Submit the image in the size it is intended to appear.

Style guide

Spelling and abbreviations etc.

- Insert only one space after full stops, not two.
- Avoid superscripts '6th' in 6th, 8th, etc. If your program does this automatically please switch it off (in Word go to Tools, Autocorrect, Autoformat as you type).
- UK or US spellings are acceptable (but must be consistent within papers).
- BC and AD (no punctuation) - also for upper case abbreviations / acronyms (UK, USA etc.)
- e.g., i.e., cf., etc. (full stops but no italics)
- et al. and c. (italics and full stops)
- No full stops after abbreviations such as m (=metre), cm (=centimetre), cms (=centimeters) and other abbreviations of measurements
- No space should be used between a number and its unit of measurement, e.g., 98cm
- Leading zero before measurements and numbers that are less than 1, thus 0.56 rather than .56, and so on

Numerals

Numbers from one to ten should be spelled out; higher numbers should be given in numerals, e.g., 11, 235, etc. No comma should be used for numbers with fewer than five digits, e.g., 5000, not 5,000; but 10,000.

Contractions

Contractions which end with the same letter as the original word do not take a full stop as in for example Dr (not Dr.), Mr (not Mr.), eds (not eds.) etc. Contractions which do not finish with the same letter as the full word do take a full stop: eg., ed., no.2.

Dates

Give centuries and millennia as, for example: 5th century BC, 2nd century AD etc. For specific years, the letters BC should follow the date, preceded by a space (e.g., 490 BC); the letters AD should precede the date, also with a space between the two (e.g., AD 499). If the date is approximate, indicate this with 'c.' followed by a space and the date; in this case both BC and AD follow the date (e.g., c. 733 BC; c. 353 AD).

Use hyphenation only adjectivally (for example, 'in the 6th century' but 'a sixth-century temple'). Please note also the following forms:

- Thursday, 12 November 1966
- 1960s (not 1960's)
- 1547–1549; 1382–1420

Italics

Italics should be used for foreign words or transliterations. Please note that the surrounding punctuation should not be italicised.

Exceptions to the use of italics are:

- when the word is part of a foreign language quotation
- when the word has already been sufficiently assimilated into the English language

Quotation marks

Use single quotation marks throughout, with double marks for a quotation within a quotation (e.g., 'text text "text" text text'). Displayed quotations have no quotation marks. Any quotations within a displayed quotation should carry single marks.

Referencing

Footnotes and Harvard style referencing are both acceptable (for multi-author volumes, precise usage to be defined by volume editors).

For Harvard style (author and date: page number) followed by end-of-chapter bibliographies see the following: 'according to Bloggs (1966: 31) it seems ...' or 'it has been stated (Bloggs 1966: 31) that ...'. Note the use of a colon between the date and page number/s.

Multiple citations should be in alphabetical order and separated by a semi-colon, e.g., (Affleck *et al.* 1988; Bahn and Pettitt 2003; Wymer 1982).

Where an author has several publications from the same year, distinguish them as a, b etc (eg. 1998a, 1998b). Do not use 'ibid'.

Where footnotes are used, they should be numbered sequentially in Arabic superscript numerals, single spaced.

Do not use endnotes.

Where an author has several publications from the same year, distinguish them as a, b etc (eg. 1998a, 1998b). Do not use 'ibid'. Please note that footnote reference numbers should be placed after punctuation and not before (i.e., word.¹ and not word¹.) Examples of the required reference format are given below. Please ensure that all references are complete. Use a colon between volume and page numbers. Do not use bold for volume numbers. For all citations and bibliographic references, spell out 'and' between multiple authors and editors, do not use '&'.

Use full stops after initials in authors' names. Thus for example, use M.S.F. Hood and not MSF Hood.

Note that for an international audience all journal and series titles must be written out in full, e.g., 'International Journal of Osteoarchaeology', not 'Int. J Osteo.', and 'British Archaeological Reports', not 'BAR'. In multinational volumes even the most familiar archaeological abbreviations may be confusing to other people.
